**DETAILED ACTION**

***Reasons For Allowance***

1. Claims 60 and 61 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose an illumination assembly comprising at least one solid state light source having an underside base mounted onto a front surface of a printed circuit board such that its underside base is adjacent to and confronting said front surface, and control circuitry connected with said solid state light source and printed on at least one of the surfaces of said printed circuit board for connecting the solid state light source to a source of power in order to control the illumination of said solid state light source, wherein said printed circuit board further including first and second electrically conductive bumps on the lengthwise ends of the printed circuit board for serving as an electrical input and output when connected to a power source as required.
3. The remaining dependent claim 61 is allowable for at least above reason.
4. The prior art made of record and not relied upon is considered pertinent to applicants' disclosure. None of cited/record prior arts stands alone or combination with others discloses all limitation required in claim invention.

***Remarks***

Amendment after final filed August 02, 2007 has been entered.
